

INTERNATIONAL SAFETY & EMERGENCY EXPO 2022
(ISEE & CEFE powered by INTERSCHUTZ)

2022.08.28-30 | Hangzhou International Expo Center

Post Show Report

ISEE & CEFE powered by INTERSCHUTZ

Joining Hands, China and Germany Promote the Innovative Development of Safety & Emergency Equipment Industry by Staging an Exhibition

International Safety & Emergency Expo (ISEE & CEFE powered by INTERSCHUTZ) 2022 was successfully held at Hangzhou International Expo Center from August 28th to 30th.

Theme for 2022: Focusing on Four Aspects and Satisfying Five Needs

ISEE & CEFE powered by INTERSCHUTZ 2022 focuses on four major aspects: work safety, comprehensive fire rescue, urban safety, and disaster mitigation, aiming at satisfying five needs of law enforcement equipment for emergency management and general administration, professional equipment to guarantee safety production and rescue in accidents, rescuing equipment for comprehensive fire-fighting teams and service-providing organs, equipment for safety monitoring and early warning in urban and rural areas, and personal protective gears for production operators and professional rescuers. All the exhibits, seminars, and trainings revolve around those initiatives and demands.

Exhibitors Statements

HUAWEI TECHNOLOGIES CO., LTD.

We've brought to ISEE&CEFE our solutions of multi-level linkage for emergency command, Gbit backhaul communication, RFID emergency resource positioning, spectral awareness, VR training and drill solutions, etc., attracting a lot of attention from potential clients and business partners. In the meanwhile, we accessed opportunities of industrial development and peers' opinions at this fair, quite appreciating everyone's efforts in creating better and innovative solutions for emergency preparedness. It is hoped that we can further upgrade and innovate products after this exhibition in an attempt to better support the emergency preparedness industry, and ensure the safety of people's lives and properties.

CHINA NORTH INDUSTRIES GROUP CORPORATION LIMITED

NORINCO Group has been a part of CEFE exhibition for many a long time with our main and new products showcased every year. In 2022, we organized seven sub-groups including Inner Mongolia First Machinery Group to participate in the exhibition, and presented crawler-type forest fire trucks, highly-protective special vehicles, all-terrain vehicles, UAVs, fire extinguishing bombs and other featured products, gaining wide attention from visitors. The professional audience of high quality and peers at a high level greatly helped us to expand the market and promote business development. This is the first time for CEFE and ISEE to be combined together. It is hoped that the fair will become an industrial gala for safety and emergency preparedness, further buttressing international and industrial exchanges in technologies. We believe that ISEE&CEFE 2023 will be even better!

CNOOC Safety & Technology Services Co., Ltd.

We, as an exhibitor, have been to ISEE&CEFE before. We can see the consistency in its professionalism and contents targeted at clients. We can not only present our technologies and products to visitors coming from across the country, but also communicate with major and well-known enterprises about technology and business. This helps better spread the information on innovative development of safety technology and service in emergency preparedness.

Exhibitors Statements

Dräger Safety Equipment (China) Co., Ltd.

We've been to ISEE and INTERSCHUTZ as an exhibitor before and we are willing to fully support and participate in its every session. The theme and content this year highlight innovation, intelligence and informatization, in line with the current industrial requirements. We take this opportunity to fully demonstrate and convey the interconnectivity, intelligence, safety and convenience of Dräger products. We appreciate the organizer for such a wonderful platform and opportunity for us to communicate with clients face-to-face. We can also promote our brand image, and share with the public our history of development, corporate culture and advantages. Wish INTERSCHUTZ series a greater success.

GUANGDONG Ruilin Special Equipment Manufacturing Co., Ltd.

Great thanks to ISEE&CEFE for being such a great platform for fire protection industry. Your pre-event warm-up, in-show promotion, and e-commerce services are all available. The booth of Guangdong Ruilin has attracted many clients and we gained very positive results. We will continue to support and participate in this event as always, and look forward to more exciting moments at ISEE&CEFE!

YIHE Group Co., Ltd.

We have been in this event for many times as a loyal fan. And every time we can find novel highlights and learn something new. This year's exhibition is more enriched in contents and flexible in its organization. Apart from product exhibition and exchanges, there are many high-level professional seminars, symposiums, exchange sessions and B2B match-makings, providing a wide platform for everyone to be engaged in communication and mutual learning. With a fleshed-out framework, it plays a very important role in combining resources of the safety industry and emergency preparedness, boosting its rapid and robust development. We will continue to pay attention to and participate in the exhibition and look forward to more exciting events.

The main purpose of visit

Accompany Conferences

The Organizing Committee, in conjunction with the National Academy of Safety Science and Engineering, the International Exchange and Cooperation Center, Ministry of Emergency Management, the China Academy of Information and Communications Technology, the China Academy of Safety Science and Technology, the China Chemical Safety Association and other institutions, arranged 17 seminars on smart responses to emergencies, chemical process safety, urban safety, industrial explosion-proof, comprehensive fire rescue and personal protection.

17

Conferences

170+

Speakers

1,754

Delegates

- Expo Opening Ceremony and Forum on Intelligent Emergency Response Tech Industry Development
- The 6th SAFER's International Inherent Safety Forum and Nuclear Power Safety Management Innovation Forum
- DEKRA Gas Safety Management Training
- Seminar on Equipment Provision for Work Safety Law Enforcement Agencies
- Smart and Green Coal Mine Safety Seminar
- Experience Sharing of How DuPont Safety Management System Being Executed in China
- International Seminar on Comprehensive Fire Rescue Techniques and Equipment
- The 9th Seminar on Risk Control and Hazard Inspection Treatment of Chemical Industry
- PPE Industry Innovative Development Seminar
- 3rd International Symposium on Urban Safety
- The 2nd International Cooperation Technology Forum on Mining Equipment Certification (Russia Session)
- 2022 Annual Workshop for Work Safety Experts Committee of Foreign Enterprises in China
- Senior Training Course for Emergency Industry Leading Talents of Peking University
- The 6th Annual Meeting of National Ex-Products Quality Inspection and Testing Center (Tianjin)
- The 3rd Fine Chemical Reaction Safety Technology Seminar
- The Inaugural Meeting of the China Chemical Safety Association Fine Chemical Reaction Safety Risk Assessment Professional Committee
- Work Safety Law Enforcement Equipment Exchange Talks

Chinese and Foreign Experts Discussing the Development of Safety Production and Emergency Management

Among 1,754 attendees including leaders of government departments, academicians of the Chinese Academy of Sciences and the Chinese Academy of Engineering, scholars from universities and research institutions, executives of leading companies and multinationals, as well as experts from Germany, Russia, the United States, Japan, Singapore and other countries, over 170 made presentations.

(Part) List of Speakers

Haoshui Wang

Deputy Secretary of the Party Committee and Chief Engineer of China Occupational Safety and Health Association
Former member of the party group and former chief engineer of MEM

Jie Su

Executive Vice President of National Academy of Safety Science and Engineering, MEM

Guofa Wang

Member of China Academy of Engineering
Chief Scientist of China Coal Technology & Engineering Group

Yonglin Min

Former Director and Researcher of Shanghai Fire Research Institute of MEM

Lori Moore-Merrell

U.S. Fire Administrator

Michael Matrian

Operations - Head of Division, Regional Office for Bremen, Lower-Saxony, German Federal Agency for Technical Relief

NAGASAWA Toru

Former First Assistant Chief at Tokyo Fire Department

Tomoaki FUKASAKU

Fire Captain, Head of First Section of HQ Rescue Operation Forces, Tokyo Fire Department

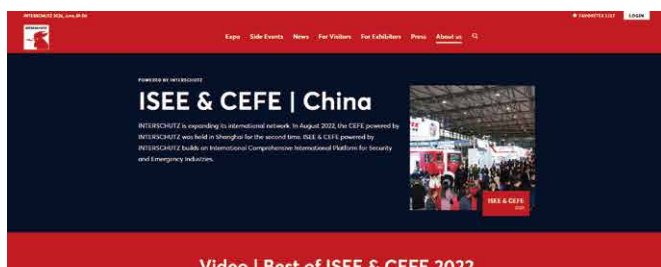

Sarah Hahn

Member of the executive committee of the German Fire Protection Association
